Meal Plan Accommodation Request

To apply for a medical meal plan, the student must register with the office of Access, Disability Services and Resources (ADSR) by providing documentation that outlines the following:

- 1) Official diagnosis and/or severity of the condition and it's limitations as related to the meal plan,
- 2) Be typed on official letterhead,
- 3) Be signed by a licensed physician competent and qualified to write such a statement (for example, an eye doctor cannot make a recommendation regarding a gastrointestinal concern),
- 4) Be current (within three (3) calendar years), AND
- 5) Provide information regarding why another available meal plan would not meet dietary needs.

Requests based on food preferences, the desire to prepare one's own meals, or perceived food intolerances that cannot be verified by a qualified physician cannot be accommodated.

Requests will be honored for the academic year in which they are requested. Requests must be resubmitted via this form each academic year.

Please send this form to adsrstudent@emory.edu with your attached documentation. You will be contacted within 3-5 business days with further instructions to process the request.

Name: _____

Student ID #: _____ Academic Year: _____

Reason for request/impact of dietary needs:

Approximate date of onset: _____

Electronic Signature _____ Date: _____
